

PRE-ANESTHETIC BLOODTESTING, ANESTHESIA, & SURGERY RELEASE FORM

Please carefully read and sign this form. The following information is essential to providing you and your pet superior care, coupled with a long-lasting personal relationship with the Greenbrier Animal Hospital Staff.

A complete physical examination of your pet is standard procedure here at Greenbrier Animal Hospital, however we do always recommend bloodwork prior to anesthesia. Because anesthesia always carries some risk & anesthetic agents are removed from the body by the liver and kidneys, we recommend a Complete Blood Count (CBC) and chemistry blood profile be performed prior to your pet undergoing anesthesia to ensure that he/she is at low-risk during their procedure. We strongly recommend a FULL blood panel test for pets over 8 years, as they are more at risk than younger animals. Greenbrier Animal Hospital utilizes the latest technology, thus enabling us to run blood chemistries in-house, within minutes, safely & accurately before your pet's procedure.

Yes, I would like my pet to have Pre-Anesthetic blood testing. (\$67.00)

Yes, my pet is over 8 years old and I would like full panel Pre-Anesthetic Blood testing. (\$136)

No, I do not want my pet to have Pre-Anesthetic blood testing.

- I hereby consent and authorize the following procedure(s) or operation(s): _____
- I understand that postoperative *pain management* is important, and authorize any medication deemed necessary by the doctor to be administered. (\$20-\$40)
- I understand that if my pet is *in heat, pregnant*, or has recently been *nursing*, there will be an additional fee for her procedure. (\$40.00-50.00)
- I understand for the health of my pet and to ensure a sanitary hospital environment, a safe prescription *flea/tick* (topical or oral) aduicide will be administered if necessary. (\$20-30.00)
- I understand that my dog must have a current Rabies, Bordetella, DHLPPC and CIV (Flu) vaccine; my cat must have a current Rabies and Felv/Rccp vaccine, given by a veterinarian, and is **REQUIRED** for any animal entering our hospital. I also understand that is my pet is not current, vaccines will be administered. Estimated cost is (\$120-135.00 for Dogs and \$74.00 for Cats)

The potential risks associated with anesthesia and my pet's procedure have been satisfactorily explained to me. I understand that all anesthetic procedures carry some risk & authorize any life saving measures to be taken if deemed necessary. I assume full financial responsibility for my pet.
